*During the reign of Tar-Ancalimon the rift between the King's Men, the larger part of the population that followed the Kings in their growing opposition to the Ban of the Valar, and the Faithful, those who maintained friendship with the Eldar, became wider.*

*Many of the King's Men began to stop using the Elven-tongues and no longer taught them to their children. Despite the rejection of the Elven-tongues, the royal titles were still given in Quenya.*

*This was done out of custom and for fear that breaking the time-honoured usage would create ill-fortune.*

*Unlike his father—who had followed Númenórean practice and yielded the sceptre before age debilitated him — Tar-Atanamir refused to lay down his Lordship before he died. He clung to the throne, and to life, far too long, lending himself the name "the Unwilling."*
